### SAVID POINT OF CONTACT FOR ADVICE TO PARISH COUNCILS

**Note:** Named individuals are NOT responsible for deploying any given initiative. They have practical experience of having deployed an initiative in another SAVID village and can provide guidance to Parish Councils on process, approximate costs and timescales and 'lessons learned' from other villages and will help inform the debate and decision making process for Parish Councils looking to take action on reducing excessive traffic speed on 30mph residential roads in other SAVID villages. They can also provide comment on the impact of deploying a given initiative on increasing awareness of speed limits, educating road users and reducing the prevalence of excessive speed.
